MODEL FEED TOOL

INTRODUCTION

The latest development in the line of the AWE promotional tools is the Model Feed tool that provides detailed information about performers. It is possible to get category based or custom lists as well. The promo tool is customizable in many ways and you can get the results in XML or JSON format.

You can find all relevant technical information below.

TERMS OF USE

Our Model Feed tool requires great responsibility. We oblige all our webmasters to handle the country ban option on every occasion on their sites regarding their users, meaning that models' data and photos cannot be displayed for members or visitors from a country that has been ruled out by the model using the banned country option. In case of reports of complaints or misuse we retain the right to terminate the webmaster account concerned.

CONTENTS

LINK & PARAMETERS

http://promo.awempire.com/xml/feed/index.php

Parameter	Explanation	Possible values	Default	Note
performerId	Name of the model or models separated with comma.	Example: 'modelId1,modelId2'	-	You will receive the details of models but only those whose names you entered. **You have to pay attention to the camelCase!**
extendedDetails	Provide more details about the models or not.	0 or 1	0	
category	The category from which you wish to receive information about the models.	+ boy + couple + fetish + gay + girl + group + hot flirt + lesbian + mature + soul mate + transgender	girl	
showOffline	Would you like to display offline models as well?	0 or 1	0	Basicaly we provide only online models, but if the performerId is not empty, you can get offline models too.
limit	Maximum number of models we can get.	Between 1 and 10000	100	We will provide the exact amount of models you submit here, except if there is an insufficient number of models online.
responseFormat	The format of the response.	'json' or 'xml'	json	See later the examples.
imageSizes	The sizes of the images separated with comma.	+ 320x180 + 320x240 + 800x600 + 896x504 + 1024x576 + 1024x768 Example: '320x180,800x600'		
imageType	Type of the image.	+ erotic + glamour	erotic	
siteId	Which site's chat room links should be generated?	-	jsm	The default one is new.livejasmin.com.
psId	Your webmaster ID	-	-	The account ID that is used on www.awempire.com
psProgram	Your selected program code	+ revs + pps + cbrnd	revs	More info on www.awempire.com
campaignId	Your selected campaign's ID	-	-	You are able to create campaigns on www.awempire.com
subAffId	Sub Affiliate ID	256 character long	-	You can enter anything here, this parameter will go through our systems.

A·W·EMPIRE

MODEL DETAILS PROVIDED

Id	Explanation	Possible values	Note
performerId	Name of the model	-	
status	Status of model	+ free_chat + member_chat + offline + private_chat	There is a 5 sec cache on it. **For continous checking purposes please use the „Model Status" tool instead of this.**
ethnicity	Ethnicity of model	+ asian + ebony + latin + white	
category	Main category of model	+ boy + couple + fetish + gay + girl + group + hot flirt + lesbian + mature + soul mate + transgender	
country	2-letter country code of model's residence	+ UK + DE + FR + US:NY + Etc...	http://www.worldatlas.com/aatlas/ctycodes.htm Except for the USA! We are using the „US:" + state codes. https://en.wikipedia.org/wiki/List_of_U.S._state_ab-breviations
bannedCountries	2-letter country codes of the banned countries of model	+ UK + DE + FR + US:NY + Etc...	Same conditions apply as with the country. **Always use the bannedCountries to filter models for your clients, because they won't be able to see the model if they are from a banned country. Forgetting or refusing to use this information may have serious consequences…**
chatRoomUrl	Link to model's chat page on the selected site.	-	
profilePictureUrl	Links to the profile pictures of model	+ size320x180 + size320x240 + size800x600 + size896x504 + size1024x576 + size1024x768	OPTIONAL The profile pictures are available in the listed sizes, available in erotic or glamour versions.
modelRating	Global rating of model	Float number between 1.0 and 5.0	The higher the value, the better.
chargeAmount	Credit price of the model.	Float number	ONLY IN THE EXTENDED VERSION
streamQuality	Quality of model's stream	Integer between 0 and 9	The higher the value, the better. ONLY IN THE EXTENDED VERSION
biography	Biography of model	-	Optional information, can even be empty. ONLY IN THE EXTENDED VERSION
turnsOn	What turns model on	-	Optional information, can even be empty. ONLY IN THE EXTENDED VERSION
turnsOff	What turns model off	-	Optional information, can even be empty. ONLY IN THE EXTENDED VERSION

languages	Languages spoken by model	+ belarusian + bosnian + chinese + croatian + czech + danish + dutch + english + estonian + finnish + french + german + greek + hebrew + hindi + hungarian + italian + japanese + korean + latvian + lithuanian + montenegrin + norwegian + polish + portuguese + romanian + russian + serbian + slovak + slovenian + spanish + swedish + turkish + ukrainian	ONLY IN THE EXTENDED VERSION
appearances	Appearance of model	+ hairy + high heel + intim piercing + latex + leather + long nails + nylon + piercing + pregnant + pvc + shaved + stockings + tatoo + uniform + wear boots	ONLY IN THE EXTENDED VERSION

		+ love balls	
		+ oil	
		+ roleplay	
		+ smoking	
		+ snapshot	
		+ squirt	
		+ strap on	
		+ striptease	
		+ submissive	
		+ swallow	
		+ vibrator	
		+ zoom	
sex	Sex of model	+ female + male + hermaphrodite + shemale + transgendered	
age	Age of model	Integer	
sexualPreference	Sexual preference of the model	+ bisexual + gay + lesbian + straight	ONLY IN THE EXTENDED VERSION
build	Build of model	+ above average + athletic + average + large + muscular + obese + petite + skinny	ONLY IN THE EXTENDED VERSION
hairLenght	Length of model's hair	+ bald + crew cut + short + shoulder length + long	ONLY IN THE EXTENDED VERSION
hairColor	Color of model's hair	+ auburn + black + blonde + blue + brown + clown hair + fire red + orange + other + pink	ONLY IN THE EXTENDED VERSION
eyeColor	Color of model's eyes	+ black + blue + brown + green + grey + other	ONLY IN THE EXTENDED VERSION
penisSize	Size of model's penis	+ small + normal + big + huge	ONLY IN THE EXTENDED VERSION
breastSize	Size of model's breasts	+ tiny + normal + big + huge	ONLY IN THE EXTENDED VERSION

BANNED COUNTRY USAGE

You have to filter our list of the models before showing them to your clients.

FILTERING PROCEDURE

+ There will be a page a request on your website from one of your clients.
    + This request comes from the client's ip (clientIP).
+ You want to show him a model / some models from our model feed tool.
+ Before you choose a model from the list you have to check from which country your client is trying to access your site.
+ You have to get the country code (and region code) from the clientIP:
    + To understand the procedure, read the PHP implementation example below.
+ Once you have the extracted country code (and region code), you have to exclude models who banned the respective countries from your model list.

PROCEDURE EXAMPLE

+ A client opens your website from the 134.201.250.155 IP address.
+ You received 3 models from our model feed tool with the following banned countries:
    + Model1 : 'RO', 'HU'
    + Model2 : 'US:CA'
    + Model3 : 'DE'
+ You extract the country code (and region code) from 134.201.250.155 IP address.
    + Country code: 'US'
    + Region code: 'CA'
+ Since this is a US IP address in the case of which you need to pay attention to the region code too.
    + Country code + ':' + Region code = 'US:CA'
+ Now you have to filter the models. If the banned countries list contains the extracted country code, the model is not allowed to be shown to the client. After the filtering is complete, the following models will remain in the list:
    + Model1 : 'RO', 'HU'
    + Model3 : 'DE'
+ Now you are free to choose from the remaining models.

PHP IMPLEMENTATION EXAMPLE

Please be sure GeoIP extension has already installed on your server.
http://php.net/manual/en/book.geoip.php

```php
<?php

$modelFeedData = json_decode(..., true) // Here you received and decoded our ModelFeed response.
if ($modelFeedData['status'] !== 'OK' || empty($modelFeedData['data'])) {
    trigger_error('API Call Error');
    return false;
}
$modelList = $modelFeedData['data']['models']; // Take out the model list from the response.

if(!empty($_SERVER['HTTP_CLIENT_IP'])) { // Get the client's IP.
    $clientIp = $_SERVER['HTTP_CLIENT_IP'];
} elseif (!empty($_SERVER['HTTP_X_FORWARDED_FOR'])) {
    $clientIp = $_SERVER['HTTP_X_FORWARDED_FOR'];
} else {
    $clientIp = $_SERVER['REMOTE_ADDR'];
}

if(!empty($clientIp)) {
    $geoData = geoip_record_by_name($clientIp); // Extract the geo data from the IP

    if(!empty($geoData)) {
        $countryCode = $geoData['country_code']; // Get the country code. if($countryCode === 'US') { //
        If USA the country, add region too.
            $finalCountryCode = 'US:' . $geoData['region'];
        } else {
            $finalCountryCode = $countryCode;
        }

        $filteredModelList = array();
        foreach($modelList as $model) { // Filter out those models who are not showable for client.
            if(!in_array($finalCountryCode, $model['bannedCountries'])) {
                $filteredModelList[] = $model;
            }
        }
        $modelList = $filteredModelList; // Use the final model list.
    }
}
```

A·W·EMPIRE

The model list is available in the following formats:
+ JSON - https://en.wikipedia.org/wiki/JSON
+ XML - https://en.wikipedia.org/wiki/XML
